

## What clients say

“ I came to Policygenius after it was recommended by a trusted financial advisor. I had insurance with a different company and wasn't necessarily happy with it. I was able to attain much more insurance for the price I was currently paying. **The process was smooth and easy and I appreciate all the assurance and help with any and all questions.** Thank you!”

“ We were referred to Policygenius [...] by our financial planner to help us comparison shop for new term life insurance policies, for two adults. **Policygenius representatives did a great job through a long and complicated process.** They were very responsive and answered all of our many questions [...] Policygenius has been easy to work with and very competent.”

“ My financial advisor helped us determine what kind of policy we need, and Policygenius made it easy to execute that decision. **It was an extremely streamlined process, which gave me confidence that I'm getting a good price.** I appreciated the tools to do much of my shopping on my own before talking to a rep. And then when I did talk to a rep, it was a very smooth process, which allowed me to confirm my decision.”

“ Policygenius isn't at all what I would have expected if they hadn't been recommended by my financial advisor [...] I wanted life insurance but wasn't sure how much, whether it should be personal or through my business, whether if through the business it should be key-man insurance vs. a standard term plan. We went through all the options and found the best way to do this, and they were part of the process [...] **Insurance is complicated, and Policygenius made it simple for me to get exactly what I needed at the best price.**”
